California, and consequently of the gold trade from
first hands, which position it is as sure to maintain,
calls loudly for a more full exposition of its impor-
tance. And while it shall be our constant aim, by
every honest endeavor, to advance the interests of
Placerville and El Dorado County generally, we
shall not be unmindful of the duty we owe to the
advancement of the mining, lumbering, agricultur-
al and commercial interests of the entire State.

The *Herald* will contain from week to week, a
general summary of all the important news from
the Eastern States, South America, Europe, Asia,
Africa, Australia and the "Islands of the Sea."—
There will also be issued from time to time, a
Steamer Edition, calculated for circulation abroad,
from which all foreign matter will be excluded, and
the entire paper devoted to such articles as will be
likely to interest *our friends left at home*.

We have made arrangements with men of deci-
dedly literary merit, in different parts of our State
and Oregon, who will keep us advised of every im-
portant fact and circumstance occurring in their vi-
cinity that will be likely to interest the miner, me-
chanic, merchant or general reader; and no expense
that our circumstances will warrant, will be spared
to render our paper one of the best in the State.—
And while we enter the field, the opponent of no
one personally, we claim as our privilege, and shall
exercise the right at all times, to discuss any ques-
tion and express our views and opinions fearlessly
upon any subject that may come under our notice,
in which the public have an interest or a right to
know or to act.

And though we disclaim every intention of mak-
ing the *Herald* either sooner or later, a violent par-
tisan paper, we do not deny that our predilections
are decidedly Democratic, and when called upon to
show our colors, shall unfurl, unflinchingly and un-
blushingly, the pure banner of Democracy.
