To the Readers and Patrons of the Herald.

It is doubtless well known to many, that the first originator of the project that has resulted in the establishment of the Placerville Herald as a public newspaper in our city, is solely attributable to the perseverance and liberality of Frederick A. Bee, Esq., who has, till the present, been associated with me in the editorial department. The main object, its permanent establishment, being now secured, with a large and rapidly increasing subscription list and the well wishes of the community secured for its continuance, and the fact that the Herald occupies an honorable position among the journals of the State,—Mr. Bee, with the gratitude I owe and acknowledge him for his invaluable services in my behalf, retires from the editorial department of the Placerville Herald, with my best wishes for his future prosperity.

W. WADSWORTH.

Ourselves and our Job Office.

THE *Placerville Herald* from this date will be edited solely by W. Wadsworth, to whom all business communications connected with the paper, should be addressed.
