**SALE OF REAL ESTATE AT SAUCELITO.—**

The sale of town lots at Saucelito came  
off as per announcement at San Francisco  
on Thursday last. There was no special  
activity in bidding, still a good portion of  
the property was disposed of, but the prices  
obtained were so irregular and the range  
so wide that it would scarcely be possible  
to give any figures that could be taken as  
a standard to regulate values. As an evi-  
dence of the rates paid we might mention  
that lots located in the hills and measur-  
ing about one acre brought \$500, while in  
adjacent blocks about half the quantity of  
land sold for double that price. In the  
valley districts, corner lots, 50x120 feet,  
brought from \$300 to \$350 a lot.
