San Francisco.

Important to Miners, Travelers and Men of Business.

STRANGERS visiting San Francisco from the interior, frequently wish to consult a physician. Not knowing whom to trust, they fall into the hands of mere pretenders, as void of conscience as of knowledge. That they may escape these dangers, DR. WHELPLEY takes this occasion to inform them that his office is now at the CORNER OF SANSOME and COMMERCIAL STS,

Opposite the St. Nicholas,
Niantic, and
Crescent City Hotels.
(*Up Stairs—entrance on Sansome Street.*)

Where he can be consulted at all hours of the day and evening.

It is needless to say that Dr. Whelpley is a regular member of the Faculty of Medicine, qualified by long study and experience for the practice of the healing art. He is able to assure those who are afflicted with the *Fevers* and *Rheumatic Affections* peculiar to California, or with those secret maladies, which from slight or neglected beginnings, destroy so many vigorous constitutions—that modern science has discovered sure, safe, and speedy methods of cure. It is no longer thought necessary to saturate the body with mineral poisons, condemning it to weakness and premature decay: the horrible system of "starving, poisoning and confinement," pursued by antique ignorance, is entirely superceded, and those miasmatic, pestilential, venereal and contagious diseases which it was supposed might, in time, destroy the human race, can now be cured by simple and natural remedies, in a few days.

1. *Syphilis.*—Recognized at first by minute sores or slight excoriations, which gradually enlarge into Ulcers, from which the veins continually absorb an active, diffusive poison.

2. *Gonorrhœa.*—An unhealthy and contagious efflux, generated at first by uncleanliness, and thence communicated by contact: producing if unchecked, a destructive and horribly painful inflammation of the urinary organs, internal and external.

3 *Seminal Weakness.*—A disease which usually commences in early life, and, by insensible degress destroys the mind and body of the sufferer.

4. *Malarious Infection.*—In the form of "Chills and Fever,"—Marsh Fever, Panama Fever, Ague, Intermittent, &c., &c, generated by the earth and air of a new country, and producing, in the sequel, a host of constitutional disorders.

5. *Rheumatic Affections.*—Face Ache, Tic Doloreux, Rheumatism, Neuralgia, Swelled Joints, Stiffness of the Joints, Arthritic inflamations, etc., the result of hard work, exposure or free living.

6. *Delirium Tremens.*—The result of excessive drinking, with mental excitement.

These and such other diseases as arise from external, non-natural causes, and are not inherited nor constitutional, may be readily and speedily cured, if taken in good time, and treated by the NATURAL METHOD.

Persons laboring under Secret Maladies or weakness, constitute at least one-fourth the population of civilized countries. Scientific and medical research has consequently been largely devoted to their cure, and the most illustrious of living names in medicine, are of those European practitioners who have discovered sure and safe methods. The saving of human life and health which has resulted from the researches of John Hunter and his successors, and the medical discoveries of Ricord and a few others, in our own times, has produced a sensible increase in population, and has extended the average term of human existence.

Dr. W. wishes to have it understood that he relies for his success upon a competent knowledge of the more recent and valuable discoveries of science. In a country so unsettled and with a population so fluctuating as that of California, it is not necessary for him to apologise for having taken this public method of making known his principles. The proof of their correctness is in their constant success.

Remember that Dr. W.'s office is on the corner of Sansome and Commercial streets, (Long Wharf,) up stairs, entrance on Sansome, opposite St. Nicholas, Niantic and Crescent City Hotels.
